Forecast for Monday 02 Aug 2021

Weather: Dry start to the morning on Monday and a bright start to the day. Cloud bubbling up during the course of the morning with a few isolated showers possible from late morning onwards. Any showers easing during the afternoon and evening leaving Snowdonia with clear spells into the overnight period.

Chance of cloud free mountain/hill tops above 800m: 80% reducing to 60% from late-morning.

Visibility: Generally good, however risk of some cloud banks near summits early in the morning but these mostly lifting, Shreds of cloud with bases from 700-800m may reduce visibilities near summits at times during the afternoon, in addition passing showers may result in the sudden deterioration of visibilities at times.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

A bright start on Monday but with cloud banks near some summits good navigation skills will be required if heading out into the hills early in the day. Conditions improve during the morning with some strong sunshine and thus high UV levels, so sun protection is also needed. In additional there is also a risk of passing showers during the afternoon, so wet weather gear is advised.

Forecast for Tuesday 03 Aug 2021

Weather: Generally dry and bright with sunny spells across Snowdonia, small risk of a few scattered showers developing during the day. Cloud increasing from the west from late afternoon.

Maximum wind: Westerly or Southwesterly 10-15mph.

Chance of cloud free mountain/hill tops above 800m: 80% throughout.

Visibility: Generally good with cloud bases above the level of summits however sudden deterioration in the visibility are possible in any showers. Visibilities below the cloud will often be good with excellent air clarity.

Temperature: **Valleys:** Plus 9 Celsius, rising to plus 16 Celsius.
At 800m: Plus 7 Celsius, rising to plus 11 Celsius.
Freezing level: Above the summits.
